

Welcome to our 2011 Catalog!

In the late fall, Erik and I purchased Attar from it's founder, Dick Martin, after over 40 years of excellent service to restaurants, stores and crafters all over the United States.

It's been such a pleasure to meet so many of the customers that have been with Attar throughout those years. For those we have still to meet, we look forward to getting to know and serve you with the same trusted quality and customer service.

We are excited about being able to expand our line of herbs and spices to include organic items and an evolving line of salts, both culinary and bath/spa grade. Please feel free to ask for something that you don't see but would like to as that information will help us determine where we will further expand.

We are a family owned and run business. Erik, who holds a degree in microbiology and biochemistry, oversees the quality control of the herbs and spice. He is also the first one to grab a handful of vanilla beans and experiment with making homemade vanilla extract, of course trying it out in more than just one type of base, always a scientist.

Our three enthusiastic children can often be found sweeping, making up boxes, labeling essential oils or decorating our white board with cheerful scenes.

When you call in, you will most likely talk with either Kate or Joyce. Kate brings great organization and a friendly voice on the other end of the phone. Joyce is always close by willing to help out wherever we need. When not in the office, she can be found in the kitchen whipping up something warm and delicious to keep us all well nourished. And yes, she always uses Attar's herbs & spices. Behind the scenes is Ray, handyman extraordinaire always with an eye to detail. Ray helps to make sure our office is warm and functional. We are so fortunate to have such an incredible team!

As for me, I find I am wearing many hats these days and greatly enjoy the moments when I am able to talk with you, our customer, and learn about your needs and hear all of the creative ways that our herbs, spices and essential oils are used to support your livelihood whether it be in your soapmaking, bakery, restaurant, health food store or whatever creative livelihood you have chosen.

For the year ahead, we are looking forward to experimenting with growing some of our own herbs and will work to build up a perennial medicinal herb garden. Ray spent many fall afternoons preparing our beautiful ten acre fields with organic fertilizer and tilling them so we are ready and set to grow come early spring.

Lastly, we look forward to continuing our service with you and appreciate all the feedback you have to offer. Your success and happiness is our success and happiness.

With warm wishes,
Melissa, Erik and the Attar Family
